Carmel-by-the-Sea, CA, September 15, 2017—The Winfield Gallery is proud to present ***International Guild of Realism (IGOR) 12th Annual Juried Show***, an annual exhibition for IGOR members only. International Guild of Realism presently have over 375 members from over 35 countries representing some of the very best realist painters in the world. The 12th Annual Exhibition showcases many styles within the umbrella of realism such as classical realism, trompe l'oeil, photo realism, magic realism and contemporary realism. The exhibition has a beautiful blend of all these styles and mediums.

All members go thru a rigorous jury committee and then they must go thru additional juries in our sanctioned exhibitions. IGOR is always looking for the very best quality but also want a blend of classic traditional realism alongside new forms of contemporary realism.

IGOR represents emerging artists all the way to living masters of the trade. Price points will go from relatively inexpensive to very high. The exhibition is a wonderful opportunity to see an emerging artist exhibit side by side a living master.
